1. This report should not be produced partly or full without approval of signatory authority for legal purposes
2. It is recommended that acceptable limit is to be implemented. Values in excess of those mentioned under "acceptable" render the water not suitable, but still may be tolerated in the absence of an alternative source but upto the limits indicated under the "permissible limit in the absence of alternate source" in column 4, above which the sources will have to be rejected
3. The results refer only to tested samples and parameters tested
4. Samples will be stored for a period of 10 days from the date of issue of report.
